## BEAN TO CUP COFFEE MACHINE

The Melitta® XT4 is part of the new generation of XT range of automatic coffee machines where design is very much at the forefront.

The housing combines refined aluminium (anodised and shot blasted) with incredibly slim dimensions. Clear lines, silver accents, black and white contrasts – and with the two narrow strips of light on the height-adjustable, zinc die-cast dispenser, you can select the colour you want. The daylight effect LEDs under the dispenser brings the coffee specialities into the limelight. The XT4 boasts eye-catching design, a range of tempting drinks especially when space is at a premium.
